Election/Restrictions

DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-30, 36-46, 54-82, drawn to wavelet transform, classified in class 375, subclass 240.19.
 - II. Claims 31-35, drawn to forming an array of pixels, classified in class 348, subclass 425.3.
 - III. Claims 47-50, drawn to sub-band coding, classified in class 375, subclass 240.11.
 - IV. Claims 51-53, drawn to bit-plane coding, classified in class 348, subclass 390.1.

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of group I which drawn to wavelet transform which is different than the method of forming an array of pixel of group II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search, for example, required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
